

POCLINK 4G LTE WALKIE TALKIE

Unlimited Range | Stay Connected Anytime Anywhere

Model
POC-1

POCLINK CORE FEATURES

4G NATIONWIDE COVERAGE

Stay connected without limits. With 4G LTE push-to-talk, Poclink Radios deliver instant, clear communication across the country — no range restrictions, no dead zones.

SMART APP CONTROL

The Poclink App lets you rename devices, create or join groups with a tap, share group codes. Full control of your communication network, right from your phone.

GROUP CALL & MANAGEMENT

Instant group communication keeps teams aligned in real time. Easily switch between multiple groups, listen in on selected channels, and manage groups.

PRIVATE CALL

One-to-one secure calls for managers and staff. Share sensitive instructions or urgent tasks directly, without interrupting group communication.

CRYSTAL-CLEAR AUDIO

Noise reduction and powerful speakers deliver clear, reliable communication with no static or distortion.

HEADSET COMPATIBILITY

Works with Bluetooth or wired headsets for hands-free, safe, and efficient communication.

ADVANCED MANAGEMENT & SECURITY

CENTRALIZED DEVICE MANAGEMENT

IT teams can monitor device status, configure settings in bulk, and distribute groups centrally — cutting down on maintenance and operational costs.

VOICE HISTORY PLAYBACK

Review past voice messages anytime, ensuring no instructions are missed and teams stay aligned.

SCALABILITY

Customizable group sizes from small teams to hundreds or even thousands of members — seamless expansion as your business grows.

REDUCE COST

No need for repeaters or private base stations. Poclinc help enterprises reduce infrastructure investment and control budgets.

RUGGED & DURABLE

Built tough with water, dust, and drop resistance — ideal for logistics, construction sites, security, and industrial environments.

DATA SECURITY & COMPLIANCE

Beyond encryption, Poclinc solutions comply with international standards such as GDPR and HIPAA, ensuring secure and compliant communication.
